Application No. 10/051,289

Continuation of 2. NOTE: Limitation of claim 2 "reflection surface has a shape that is a part of an ovar larger than a front surface and a back surface of the lens" is a new subject matter because originally claim 2 and specification (pages 8 and 9) disclosed: "reflecor is structured such that the vertical cross section and the horizintal cross section are formed in a oval surface larger than the I ns"...
